China	Guyana	Morocco	Solomon Islands	
China, Hong Kong SAR	Haiti	Mozambique	Somalia	

Source: World Health Organization Global Health Observatory, Tuberculosis Incidence 2018. Countries with incidence rates of  $\geq 20$  cases per 100,000 population. For future updates, refer to <http://www.who.int/tb/country/en/>.

Have you had frequent or prolonged visits\* to one or more of the countries or territories listed above with a high prevalence of TB disease? (If yes, CHECK the countries or territories, above)  Yes  No

Have you been a resident, volunteer, and/or employee of high-risk congregate settings (e.g., correctional facilities, long-term care facilities, and homeless shelters)?  Yes  No

Have you been a volunteer or health care worker who served clients who are at increased risk for active TB disease?  Yes  No

Have you ever been a member of any of the following groups that may have an increased incidence of latent M. tuberculosis infection or active TB disease: medically underserved, low-income, or abusing drugs or alcohol?  Yes  No

**If the answer is YES to any of the above questions, McMurry University, requires that you receive TB testing as soon as possible but at least prior to the start of the subsequent semester.**

**If the answer to all the above questions is NO, no further testing or further action is required.**

\*The significance of the travel exposure should be discussed with a health care provider and evaluated.
